

Engineering Maintenance Solutions

Engineering Maintenance Solutions

Media Information 2026

Celebrating 21 Years

Since 2005

EMS or Engineering Maintenance Solutions; is a specialist magazine distributed to inform and educate Directors, Managers and Engineers responsible for the Maintenance, Asset Management and Production within Engineering plants.

Magazine

EMS is a bi-monthly magazine that examines how to improve plant and machinery lifetimes, buildings infrastructure, strategic maintenance management, how to reduce costs and downtime and increase overall equipment effectiveness.

All editorial is independently researched and commissioned and written by qualified experts in the field of maintenance & engineering.

Website

www.engineeringmaintenance.info is now the World's largest online information resource for maintenance professionals. Specifically designed to promote technical excellence in maintenance, informing and educating the top maintenance professionals across the globe. Our portal contains the latest news, technical articles, jobs, directories and events plus a comprehensive editorial archive.

**Interact With A Unique Audience Of Primary Maintenance,
Asset Management & Plant Engineering Professionals**

Magazine Circulation

With a worldwide circulation of over 180,000 of Directors, Managers and Engineers responsible for the Maintenance, Asset Management and Production within Engineering plants - EMS is the perfect platform from which to promote your product or service

ENGINEERING SOLUTIONS TV

ENGINEERING TIPS • TECHNOLOGY • PODCASTS • INTERVIEWS

Video Hosting From £150.00

Video Production From £250

Welcome to Engineering Solutions TV – the ultimate channel for engineering decision-makers, professionals, and innovators!

Whether you're a plant manager, design engineer, maintenance expert, or tech enthusiast, this is your go-to hub for the latest in engineering solutions, cutting-edge technology, career opportunities, training resources, and industry insights.

- 🔧 Discover real-world applications
- 🔧 Explore breakthrough technologies
- 📁 Stay updated on the latest engineering jobs
- 📖 Access expert-led training and advice
- 🌐 Join a growing community of forward-thinking engineers
